REMARKS

25X1

This is UNEVALUATED  
Information

1. [ ] the following construction work is scheduled to be executed in 1955 within the framework of the Gorgast construction project, which has numerical designation 131;

25X1

- a.. Enlargement of garages, sum allocated: 168,000 DME
- b. Improvement of drainage facilities, sum allocated 152,000 DME
- c. Construction of fire station, sum allocated 45,000 DME
- d. Safety installations for "Technical Zone", sum allocated 70,000 DME
- e. Emergency power generator, sum allocated 65,000 DME.

25X1

The "Technical Zone" is used for the storage of ammunition and explosives in underground bunkers. The area is surrounded by an earth wall.

2. Construction work has not yet been started at Gorgast and the designs for the individual installations to be built there have not been completed. In about April 1955, surveying was started at Gorgast in a rather different way. It is not known if this surveying was connected with the construction plans as mentioned above.

[ ] Comment. The original plans for the Gorgast construction project were transmitted previously. [ ]

25X1

[ ] Comment to referenced report, it was doubted if the installation was to become a central ammunition depot. It is rather believed that an ordnance depot is planned.
